FAQs

LID Rules and Regulations

LID is a municipal utility district governed by a three member Board of Directors elected by LID's customer/owners. The Board of Directors is responsible for setting policy and establishing the rules, rates and regulations that govern both LID and its customers. If a rule pertains to your specific claim, we will inform you and provide you with a copy upon request.

Who is Responsible for Damages?

No utility is in a position to guarantee 100 percent continuity of electric service. However, it is our policy to investigate claims in order to determine if our conduct or inaction was unreasonable under the circumstances, thereby causing injury or damage. LID's Rule 14 states: "LID will not be liable for interruption or shortage or insufficiency of supply, or any loss or damage of any kind or character occasioned thereby, if same is caused by inevitable accident, act of God, fire, strikes, riots, war, or any other cause except that arising from its failure to exercise reasonable diligence."

Determination of Responsibility and Payment if LID is at Fault

LID will conduct an investigation based on the information you provide on your claim form and internal LID records and interviews with LID field personnel. The investigation results will determine whether your claim is accepted or rejected. If your claim is accepted, LID's payment with regard to property damage will depend on the extent of damage and value of the property. If the property can be repaired, LID will pay the cost of repair. If the property cannot be repaired, LID will generally pay reasonable market value for the property at the time it was damaged, or the depreciated cost to replace the property, whichever is less. You may wish to check with your insurance carrier prior to submitting your claim to LID, as your insurance coverage may provide greater compensation. Payment for bodily injury is determined by several factors including, but not limited to, type and severity of injury, medical bills incurred, lost wages (if any) and permanent disability sustained (if any).

Protecting Your Equipment

Motors and sophisticated electronic equipment need protection from power irregularities. It is the owner's responsibility to have adequate protection against voltage fluctuations. These protective devices are designed to separate the equipment from the power source when fluctuations occur, thereby protecting the equipment. If you would like copies of LID Rules which set forth this responsibility, please call (209) 888-4799.
